- 25X1 1. On 28 June 1947, a party of Russian experts visited the torpedo factory and
25X1 examined all the machinery. They ordered the stopping of all work except the
25X1 production of torpedoes so as to allow repairs to be made to the factory itself.
25X1
2. According to the plans of this commission, the factory must reach full production
as soon as possible and turn out 160 torpedoes per month.
3. Machinery which was taken away by the Germans is to be replaced by German
and Russian machines.
- 25X1 4.
5. The same commission also inspected the shipyards at Quarnaro and it appears
that as a result of this visit the two industries are to be amalgamated.
